

# BIG 6, LLP

**100% Female Owned and American Made**

VAST<sup>6</sup> was designed to protect your irreplaceable valuables: Children, family, and friends.

BIG 6, LLP is the developer/producer of a revolutionary and dynamic personnel protection from active shooters and tornado destruction to both schools and industry. The VAST<sup>6</sup> is custom built to accommodate size constraints and to your schools' unique needs.

**VAST<sup>6</sup> (PATENT PENDING):** Vault for Active Shooter and Tornado has completed final production testing and evaluation and is ready for full-scale production.

We offer an innovative collapsible active shooter protection, available for entry in less than 20 seconds and meets FEMA 453 active shooter ballistic requirements and certified F-5 Tornado protection from FEMA P-361 specifications.
